

Project Design Phase-I Solution Architecture

Date	15 October 2022
Team ID	PNT2022TMID29662
Project Name	Gas Leakage monitoring and Alerting system
Maximum Marks	4 Marks

Solution Architecture:

Gas Leakage Monitoring & Alerting System for Industries has all the features as explained below

Features:

- This project helps the industries in monitoring the emission of harmful gases
- In several areas, the gas sensors will be integrated to monitor the gas leakage
- If in any area gas leakage is detected the admins will be notified along with the location
- In the web application, admins can view the sensor parameters.
